

The SWRR Directory

Here's a directory of all the sports specialists and related services you recommended in the recent Club Survey. Any discounts offered are indicated next to the individual's details – please ensure you mention the 'SWRR Directory' when booking.

Finally, the legal bit: it has to be said that, whilst Club members have had good service from these organisations in the past, we can't "guarantee" that you will too. If you have good reason to believe an entry should be removed from the Directory, please let me know immediately. Many thanks, Ingrid

Andy Middlebrooke

Dr Andrew Middlebrooke
Exercise Science Consulting Ltd
Tel: 01392 207783
Mob: 07906 502180
Email: andrew@exercisescienceconsulting.co.uk

Exercise Science Consulting Ltd(ESC) was created by Dr Andrew Middlebrooke with a mission of providing the highest quality in client-centred exercise and sport science solutions.

The ESC lab at Exeter Physio Sports, Spinal and Rehabilitation Clinic provides an easily accessible opportunity for individuals, teams, businesses and organisations to find out exactly what physical shape they are in and get appropriate scientific advice on how to achieve their personal and collective health, fitness or performance goals.

Whether you are new to exercise, a committed recreational athlete or an elite performer, you can benefit from the services we offer. Through the use of the latest scientific equipment and innovations in exercise and sport science we can provide you with a range of physiological tests to assess your current health and fitness status and be able to monitor your physiological changes over time. This provides the vital information needed to design an exercise training programme that really works for you, accurately monitor your progress and help you to achieve your health, fitness or performance goals in the shortest possible time.

Dave Pressley
Optimal Effect Coaching,
22 High Street,
BRADNINCH,
Exeter, EX5 4QL.
(01392) 881711
d.pressley@btopenworld.com

Whatever your level, from novice to experienced athlete, you should always be looking for ways to improve.

Why not try training smarter by getting the assistance of a coach?

- **Would you like to start in athletics or triathlon, but don't know how to go about it?**
- **Are you training hard but not getting the results you want?**
- **Are you stuck on a plateau and can't improve?**
- **Are you bored or disillusioned with your training?**
- **Are you regularly ill or injured?**
- **Do you want to put together a thorough Winter endurance programme?**

If you answer yes to any of these questions, then why not get in touch with Dave Pressley and get an individually structured training programme.

Jo Moretta D.O.
St Leonard's Practice
Exeter
01392 257431

Free initial consultation for SWRR members

"I would be happy to be included in your directory as an Osteopath, with a special interest in sports injuries gained both from the last 18 years of clinic experience and years of personal sporting achievement (and the various injuries incurred).

*In particular relevance to runners, I have a great deal of experience in diagnosis and treatment of many foot and lower limb injuries; from the typical Achilles tendonitis and shin splints to stubborn knee pains and hip complications.
I can provide a range of Orthopaedic diagnoses and offer a valid opinion about whether Osteopathic or manual therapy is appropriate and what remedial exercises are needed.*

As to the issue of a membership discount, I would be happy to offer a £3 discount from the full £33 treatment cost. I would also like to offer a free initial consultation, where anyone can make an appointment at the St Leonard's Practice for a full discussion of their injury and hopefully establish a diagnosis."

Joe Blatherwick
Sports Massage Therapist and Personal Trainer
joemblath@yoofit.co.uk
07947 824958

- you don't have to be a sports professional to benefit from a sports massage
- deep tissue massage is proven to aid in recovery and training performance, as well as speeding up recovery from injury

"If you find yourself with any aches, pains or niggles, or just want to talk, let me know and I'll help you get back on track.
Feel free to chat to any of the members of the club who regularly receive treatments from me.

I normally try and get to the club one Wednesday each month to show my face and have a bit of a chat. Usually the second Wednesday of the month.
Please don't hesitate to get in touch and look forward to seeing you."

Clare Hodgson Sports Massage

Julie Duff Dip.SM

Exeter Sports Massage at Zamora

37 Magdalen Road
St Leonards
Exeter
Tel: 07770 768439

"Sports Massage has many benefits to runners. It assists in aiding recovery from the aches and pains of a lengthy run or intense training session by loosening muscles that have contracted from continuous use and therefore shortens the recovery time between workouts.

As running is a repetitive activity that stresses the body, numerous problems can occur, which is why Sports Massage can reduce the risk of injury. This is achieved through deep tissue manipulation and assisted stretching which is combined within the Sports Massage treatment.

If you are a competitive athlete, Sports Massage can improve your range of motion and muscle flexibility, resulting in improved power and performance. Sports Massage also has many psychological benefits such as invigoration and reduction of mental tension.

We all know the frustration of dealing with an injury. Which is why Sports Massage can help you keep in optimum running condition and should be incorporated as part of your training regime and not necessarily just considered should an injury occur. Furthermore, having a Sports Massage makes you feel GREAT!

If you have any further queries/questions regarding Sports Massage or to book an appointment, please contact me."

MEMBER ENDORSEMENTS

"**June Jupp** – Massage, reflexology & excellent listening ear. **01392 211282.**"

Colin Kirkland 07790 738042 www.bodyactivetraining.co.uk

"He's a personal trainer, runner and sports massage therapist. I had a very weak knee. A deep muscle massage from Colin cured this. I now use him after a busy race schedule. I can't recommend him highly enough. Really knows his job."

Ocean Physio(Exeter University)

"It's handy to find physios, a podiatrist and sports massage all under one roof, with easy parking and top of the range facilities. I found the team professional, friendly and very knowledgeable. I'd particularly recommend James, a chartered physio who uses acupuncture to treat injuries."

"I'd recommend **Jo Moretta** at the **St Leonards Practice (01392 257431)**. He's both a professional and highly experienced osteopath."

"**Simon Spooner** has just made me shoe orthotics. He is very experienced, knowledgeable and explains what he is doing. He's at Ironbridge Runner on Thursday pm or else in Plymouth (easy to find and possible to park car in the road near the clinic). He charges £35 for the 1st consultation and the top of the range orthotics are £150 – there is a less expensive option too. Telephone **01752 241442.**"

Emma Thacker 01392 420503/07835 412415 is a well-qualified, enthusiastic sports message therapist who's based at Clifton Hill and her own home in Newtown. Her prices are competitive (from £15) and she'll see you at weekends too."

"I'd like to recommend **Peg Wiseman**, the Sports Therapist at the Arena, for anyone who hasn't heard of her. She is fab. I'd had a problem with my right knee for ages and it's now fine! The massage hurts like hell, but she suggests great exercises and offers really helpful coaching advice too. **07814 488201**
